

Install

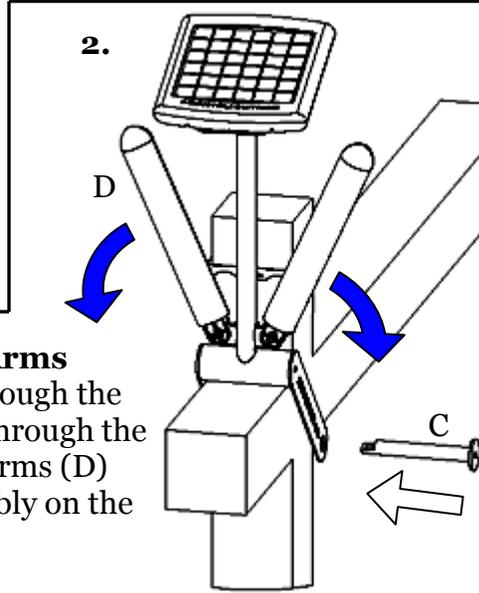

1.

1. Slide Unit on Post

Unpack unit. Place it vertically over the post. Make sure that the Support Ring (A) is perpendicular with the body and slides over top of the post.

2.

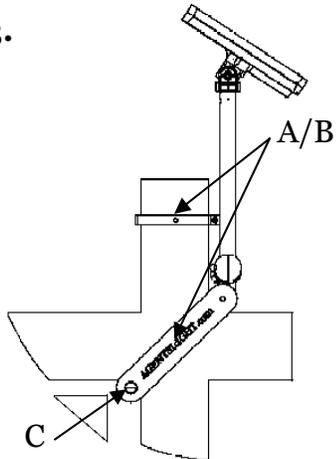

2. Place Pin and Lower Arms

Swing the Lock Arms (B) through the posts and place the Pin (C) through the Lock Arms. Bring the LED Arms (D) down and sit them comfortably on the base.

Secure

3.

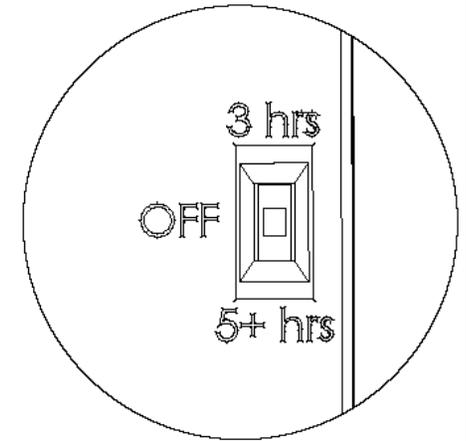

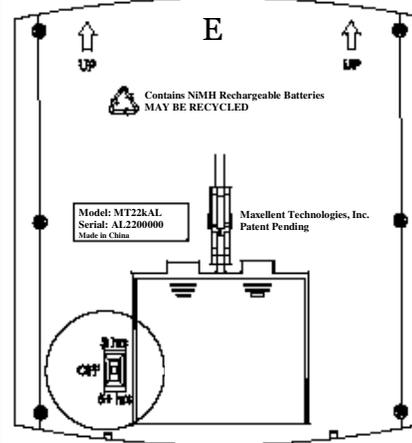

3. Locking the Unit

Security is a critical component found in the AGENTS LIGHT™. Insert lock at the end of Pin (C). The Support Ring has also been equipped with a stopper to prevent any tampering. The Support Ring (A) and Lock Arms (B) have screw holes for optional security.

Adjust and Turn ON

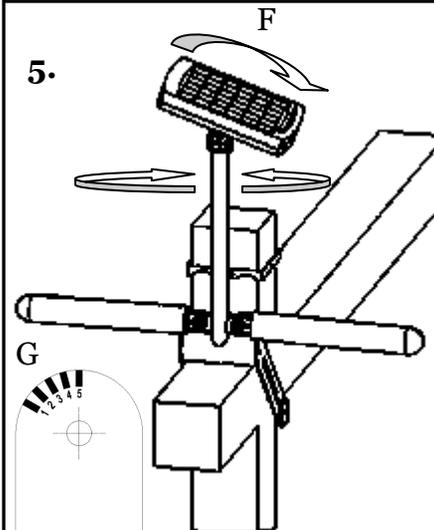

4.

4. Turn Unit ON

After assembling and securing the unit. Look under the Solar Housing (E) to turn the switch on. The unit has two modes. It can be switched to 3 hours, where the unit turns on at night for 3 hours and shuts off. Or 5+ hours, where the unit remains on for the maximum time your conditions allow. Lights blink 3 or 5 times depending on the corresponding setting. *Always turn off the unit when being stored or removed.*

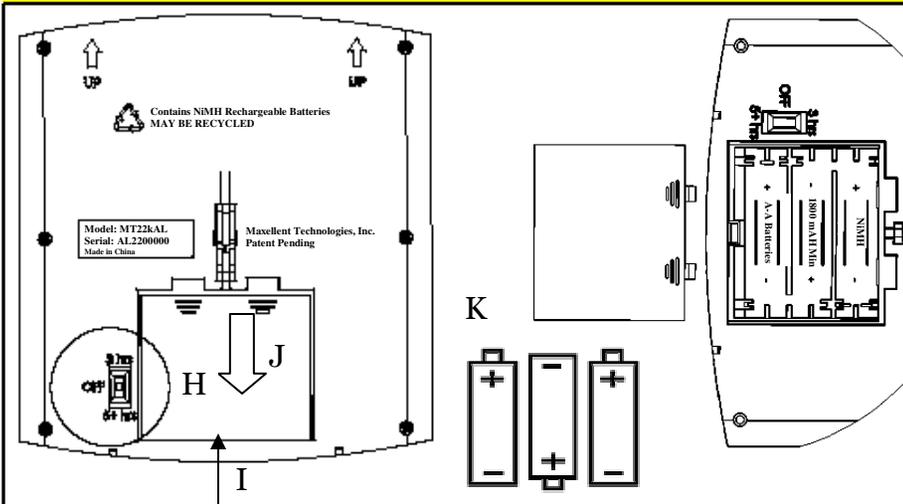

5.

5. Adjust Panel to Sun

The Solar Panel should be facing south, and have mild tilt (F) ranging from 1-2 on the tilt-meter (G) toward the sun. Rotate the panel along its axis (body) to the desired location. The panel intentionally stops to prevent damages. **NOTE:** Please do not force the panel, simply rotate in the other direction to get to your desired location.

Replacing Batteries (when necessary)

This unit comes equipped with 3 AA, 1800 mAh NiMH rechargeable batteries. Turn the switch (H) to OFF position and remove the screw (I) and slide Battery Cap (J) down. New batteries can now be installed according to their proper orientation (K). *Note: Batteries should not be replaced unless results have decreased dramatically. Old batteries should be recycled properly.*

Warranty

90 Day Limited Warranty

If within 90 days from the date of purchase, this product fails due to a defect in material or workmanship, Maxellent Technologies Incorporated will repair or replace it, at its sole option, free of charge. This warranty is extended to the original purchaser only and is not transferable. This warranty does not apply to: (a) damage to units caused by accident, dropping or abuse in handling, acts of God or any negligent use; (b) units which have been subject to unauthorized repair, opened, taken apart or otherwise modified; (c) units not used in accordance with instructions; (d) damages exceeding the cost of the product; (e) lock and batteries, (f) the finish portion of the product, such as surface and/or weathering, as this is considered normal wear and tear; (g) transit damage, initial installation costs, removal costs or reinstallation costs. Shipping and handling cost are not covered by warranty. This warranty service is available by either (a) returning the product to the dealer from whom the unit was purchased or (b) contacting Maxellent Technologies Incorporated at support@agentslight.com or 619-591-8822 to get a return merchandise authorization. Maxellent Technologies Incorporated disclaims any warranty of merchantability and is not responsible for any anti light ordinances in your municipality.
